

## Career Opportunity

Rainy River Resources Ltd. is a publicly traded company engaged in the exploration of properties located in Northwestern Ontario. A career opportunity is available due to recent advancements in exploration activities at both the Rainy River gold project located approximately 60 km northwest of Fort Frances as well as the Ti-Pa-Haa-Kaa-Ning gold project located approximately 300 kilometres north of Geraldton.

### **Environmental Specialist, Emo**

Rainy River Resources is planning to initiate an underground exploration program in early 2011 at the Rainy River project that will entail approximately 3 years of resource assessment. As part of overall environmental management at the project site, we require an experienced Environmental Engineer/Scientist to work with the site staff and subcontractors to ensure that various environmental management plans are implemented.

Your primary responsibilities are as follows:

- Work with site staff and contractors to ensure environmental management at the site meets corporate as well as legal standards
- Conduct various environmental sampling duties including working with consultants
- Assist with community development programs

Your experience should include a minimum of 5 years working in an industrial setting in the field of environmental management, ideally in the mining industry. The ideal candidate will have a Bachelor of Environmental Engineering or related science discipline. Applicants with a technology or similar diploma with good experience will also be considered. You must have strong communication skills including computer literacy (Word, Excel, PowerPoint) as well as be able to work in teams to ensure common goals are accomplished. This position will report to the Director of Environment & Sustainability.

If you are interested in an exciting opportunity to work with our experienced team as we focus on developing the Rainy River Gold Project, please apply in confidence on-line to:
